

WHERE CAN A FENCE BE LOCATED AND HOW HIGH CAN IT BE?

No fence, hedge, wall, or screen planting of any kind shall be constructed or grown to exceed six (6') feet in height (unless otherwise required by law) within any required side yard to the rear of the required front yard of any dwelling or within any required rear yard; nor exceed three (3') feet in height within the required front yard of any dwelling, or, for corner lots, within twenty-five (25') feet of a street corner measured at the property line. Fences or walls limited to three (3') feet in height may be vertically extended up to four (4') feet with open work fence material, subject to approval of the Planning Director, who shall consider the compatibility of the fence design with its site and surrounding uses. An "open work fence" means a fence in which the component solid portions are evenly distributed and constitute not more than sixty (60%) percent of the total surface area of the fence.

Maximum height of any fence, wall, hedge or screen planting:

3 Feet (May be up to 4 feet with open work material)

6 Feet
