

Communication Program

A PDF link to the Wastewater Division's SSMP is posted on the CityofPacifica.org website for public review under the Departments – Water Recycling/Waste Water Treatment – Waste Water Collection tabs. The public may send comments, questions, and input to the Division through the contact information, email and phone number, posted on the same webpage as the SSMP. The City Council has certified the plan at a regular meeting in which the plan was presented and public input was allowed. The plan is being re-certified at a regular Council meeting in November of 2012 in which the updated plan will be presented and public input will be allowed. Throughout the implementation process public input will be encouraged and reviewed by Division staff.
