April 19, 2019

## City of Pacifica Customers Save \$505,000 Earn National Recognition for Commitment to Clean Energy

Pacific, CA – April 19, 2019 – City of Pacifica customers saved \$505,000 on their electricity bills in 2018 with Peninsula Clean Energy (PCE). In addition, this year the U.S. Environmental Protection Agency (EPA) recognized the City of Pacifica as a new member of its national Green Power Community program, based on PCE's ECOplus clean energy mix containing at least 50 percent renewable energy.

Peninsula Clean Energy consistently sets its rates at 5% below PG&E's electricity generation rates for its ECOplus product, resulting in millions of dollars of savings annually across its 290,000 customers. More than 97 percent of San Mateo County households and businesses purchase their electricity through Peninsula Clean Energy, and collectively saved an estimated \$18 million in 2018. Peninsula Clean Energy exceeds not only the EPA's clean energy targets, but also California's ambitious goals. PCE plans to provide 100 percent renewable energy by 2025, while the statewide goal is currently set at 60 percent renewable by 2030.

Congratulations, Pacificans! To view the related press release for San Mateo County, [follow this link](#).

### About Peninsula Clean Energy

Peninsula Clean Energy (PCE) is San Mateo County's official electricity provider. [PCE](#) is a public not-for-profit, local community choice energy agency that provides all electric customers in San Mateo County with cleaner electricity at lower rates than those charged by the local incumbent utility. PCE, formed in March 2016, is a joint powers authority made up of the County of San Mateo and all 20 cities and towns in the County. PCE serves approximately 290,000 accounts.
