

We are living through unprecedented times. The pandemic is threatening our families, friends, and neighbors, and straining our community. Simultaneously, we are on the cusp of the most consequential national election in the modern era. In the background are the unpredictable effects of climate change, the impact of which we will experience with steadily increasing intensity.

Pacifica needs energetic and responsive leaders who are in tune with the unique character of our close-knit community. I will bring a fresh perspective and innovative ideas to a political culture here that has too often been seen as being ineffectual, or even at times out of step with the community. With the pandemic upon us, we will need to answer the call to help our neighbors and those in need more than ever. We must participate in the fight for social justice and equity. And we must protect the fabric of our unique coastal community, and capture the forthcoming opportunities to bring much needed small business development and Main Street revitalization to Pacifica.

I hope you'll give me the opportunity to serve you and our community in this most pivotal moment.
